Dear Omar,

Thank you for your generous donation to the Headstrong Project's *Words of War* benefit on October 19, 2015. The funds raised from this event will be used to deliver care to veterans and their families through our treatment program at Weill Cornell Medicine. At Headstrong, our vision is to expand our program nationwide allowing for access to those veterans who live outside of the New York area. Veterans in the New York and, as of this year, San Diego areas can expect the same personalized, high quality, and state-of-the-art care our clinicians have been consistently delivering for the last three years.

We are extremely proud to have built a program that provides world-class treatment to Iraq and Afghanistan veterans suffering from the hidden wounds of war. Each patient receives individually tailored care designed to help them recover and return to fulfilling, happy, and purposeful lives. This program has not only proved to be highly effective, but thanks to generous donors like you, it is completely cost and bureaucracy free for enrolled veterans.
